

NEBOSH Health and Safety Management for Construction Certificate

This course provides essential knowledge for those working in the construction industry and for those who have H&S responsibilities as part of their role.

Our trainers are qualified H&S professionals with practical experience of engineering projects in the construction industry.

Key Learning Areas:

1. The foundations of construction health and safety management
2. Improving health and safety culture and assessing risk
3. Managing change and procedures
4. Excavation
5. Demolition
6. Mobile plant and vehicles
7. Working at height
8. Musculoskeletal health and load handling
9. Work equipment
10. Electricity
11. Fire
12. Chemical and biological agents
13. Physical and psychological health

Modes of Learning Offered:

- Face-to-face – minimum of ten working days, including assessments
- Part-time day release - spread over at least ten weeks
- Open, distance or eLearning

Examination & Certification

- Open book examination based on a real life scenario. Learners will have 48 hours to download and complete their assessment.
- A certificate of attainment will be issued by NEBOSH accredited to SCQF Level 6 and RQF/CQFW Level 3.

The Benefits to You

The NEBOSH Construction Certificate is widely respected by employers and meets the requirements for Technician Membership of IOSH (Tech IOSH) and Associate Membership of IIRSM (AIIRSM). It also meets the academic requirements for the issue of the 'Academically Qualified Person' CSCS Card.
